Chinese Soldiers Red-Hot Campaign Behead Miners

Attack Made Upon Russian Forces Who Were Guarding Colliery at Fort Adams.

IAO TANG, May 16 - Further details of the attack made May 14 by Chiness soldiers upon the railway coal mines occupied by the Russian administrative forces near Port Adams. now that the troops were the bodyguard of the Governor of Foo Chaw, who led the attack in person and was attended by tifteen Chinese officials. The Governor ordered the arrest and the behending of the miners. The Russians were stripped and driven off naked, their propcrty was looted and 20,000 tons of coal was destroyed. A detachment of Japanese troops had passed the coal mines the prelous day, but did not touch them, regard-

vious day, but did not touch them, regarding them as private property.

Another conflict between Cossacks and Chinese bandits has occurred in the village of Chantaidsy. The bandits, it is stated were led by four Japanese troopers. The Cossacks, numbering thirty-three, lost two killed and succeeded in killing twenty-five of the bandits, the remainder of whom escaped. The bandits used dum-dum builets.

Lieut Sorrokin, who was wounded in the sive in the fight at Kiu Lien Cheng owes his life to the mercy of a Japanese soldier. When the Lieutenant fell after receiving his wound, a comrade stopped to rescue him. Two Japanese soldiers, one of whom carried a Red Cross thag and the other a rifle, came up. The rifleman leveled his weapon and ordered Sorrokin to remain prone upon the ground and his companion to leave. Then the Japanese with the Red Cross flag carefully washed and dressed Sorrokin's wound, gave him a drink and extired. Sorrokin a givel her safely. Sorrokin's wound, gave him a drink and retired. Sorrokin arrived here safely.

Election, Which Occurs Today, Prom. ises to Be Hotly Contested, and Trouble Is Feared.

ENVER, Colo., May 16.-The most intensely bitter political campaign in the history of this city closed tonight and tomorrow a full city ticket, the first under the new charter, will be voted on, as well as propositions for refunding the bonded and floating indebtedness of the city and the issuance of bonds for the erection of an auditorium. During the campaign every daily news-

paper in the city has been arrayed against the Democratic ticket, headed by Robert W. Speer for Mayor. Speer is charged with being the "machine" man. John W. Springer, formerly president of the Na-

with being the "machine" man. John W. Springer, formerly president of the National Live-Stock association, heads the Republican ticket.

The most interesting feature of the campaign has been the court proceedings which wound up today with the Elections commission, consisting of two Democrats and one Republican, being hauled before the Supreme court for alleged violation of its order concerning the delivery of judges' books. The court ordered a receivery of the books in certain instances. Another sensational incident occurred today when Crawford Hill and W. M. Stapleton, proprietor and editor, respectively of the Denver Republican, were brought before the District court by order of Judge Mullins, and charged with contempt of court. This action is the outcome of an editorial printed in that paper in which it was intimated that there were "tool" Judges on the District bench. Both Hill and Sispleton were released on bonds and will have a hearing later.

So numerous have been the stories of alleged picts to steal the election tomorrow by frauds at the polls that citizens' organizations, pledging themselves to the perpetuation of the purity of the ballot, have been fermed and through this influence arrangements for special watchers at the polls in the down-town districts have been effected. A delegation of Republicans called on Mayor Wright today and demanded that he ask the Governor to order out the militia temocrow. The Mayor, who is a Republican, refused to respond to this demand, saying that in his opinion the police authorities would be amply able to cope with any trouble that may arise.

THE GARFF PROPOSITION.

Editor Tribune:-I have read with surprise and pleasure the proposition made to the City Council of our city to put in a municipal light plant, and at the end of ten years, turn it over to the city free of all debts. This is a most remarkable offer and

one never before made, I believe, to any city in the world; and if our City Council do not grasp this offer at once then it will be ample evidence that they do not represent the people's interests; and their refusal of this offer should stamp them as unworthy to represent a free people.

The thought that a community can do for itself the things which have heretofore been delegated to a private corporation to much better advantage, is uppermost in the mind of the man who has given even but a casual study to the question.

One hears more and more of this subject each year. The extent to which this idea has taken possession of the people in this country and other ad-vanced nations is a surprise to those who have not kept pace with the trend of current thought.

The fourteenth annual labor report of the United States is devoted to an ex-haustive investigation of the cost of production, rates, wages paid, etc., of municipal and privately owned light and gas plants. The figures are inter-esting and no doubt authentic. There was at that time almost 500 municipal owned electric light plants, and the difference in cost of lights is invaria-

bly in favor of municipal ownership.

At the end of ten years, Salt Lake will own its own plant, and our arc will own its own plant, and our arc lights should not cost to exceed \$25 per arc, while now they cost \$72, a saving of \$47 per light or on say 500 lights, a saving of \$22,500 per annum, which amount could be devoted to improving our streets, fire or police department, or paying the city's indebtedness, or decreasing our taxes.

There are now six or seven municipal plants in Utah, all in operation, and giving splendid satisfaction to the peo-

There is no reason why the people of Salt Lake should not own its own light plant, as well as its own water system, police and fire departments. Is there a man foolish enough to say we would get our water as cheaply under private ownership as we now do, under public ownership?

There are ten thousand reasons why we should own our own lighting plant, and I do not believe a single reason can be adduced why we should not.

Let our city fathers act promptly in this matter, for it has no politics in it. The true city is the city where justice and manhood are more regarded than money; the city where power and prosperity are for the whole people, and not for the private possession of a few politicians and monopolists.
